**COMPTROLLER'S MEMORANDUM NO. 2001-29**

TO: All Department Heads

SUBJECT: Early Cancellation of 2001 Claims Encumbrances

All inactive claims encumbrances recorded as of June 30, 2001, will be cancelled and the related appropriation lapsed, if the encumbrances have not been expended by the close of December 2001. To meet this deadline, all expenditure vouchers containing payments against prior year encumbrances must be received by this department's pre-audit branch on or before December 31, 2001. This early cancellation process is applicable only to operating funds (general, special, federal, revolving and trust) expended by the executive branch unless otherwise provided by law.

We will again automate the cancellation process by determining whether an encumbrance is active or inactive. An encumbrance will be considered active and will be automatically extended if it meets both of the following conditions:

1. Last activity date of the encumbrance is after August 1, 2001.
2. Total payment against the encumbrance is more than 50% of the encumbrance.

As of December 31, 2001, any claims encumbrance not meeting both conditions will be considered inactive and shall be cancelled. The EDN 100 program of the Department of Education is once again exempt because carryover provisions provided under general law conflict with the cancellation requirement.

Encumbrances that are paid by journal vouchers using transaction code 804 will not be automatically extended even if both conditions are met. Departments must therefore request an extension for these encumbrances.

Extension requests may also be submitted for federal and trust fund encumbrances that do not meet both conditions above, but whose conditions of funding prohibit cancellation of the encumbrances. All extension requests must be received by the Comptroller by December 14, 2001.
